

## CRCC Equal opportunities monitoring form

Cambridge Rape Crisis Centre is committed to ensuring that we recruit women from minoritised and underrepresented groups and communities. This includes AFAB non-binary individuals who feel comfortable volunteering within a service run for women by women. For us to monitor this policy, we collect data from prospective volunteers, and so invite you to complete the following questions.

All information will be treated in the strictest confidence and is anonymous. This information will be kept securely and separately from your application and will have no impact on the outcome of it. This information will be used for equal opportunities monitoring and statistical analysis only.

All questions are required to submit the form. Nevertheless, if you would prefer not to answer any of the questions, please feel free to type any value in the box, for example; 'n' or 'djhdhdsldh'

You can access and complete the equal opportunities monitoring form via this link:
